## PROFILE

With a passion for creating seamless user experiences for revolutionary products, I bring over 5 years of work experience, having co-founded and successfully scaled two startups. My entrepreneurial journey gave me hands-on expertise in product development, design thinking, and user-centered innovation, shaping my approach to crafting intuitive digital experiences.

Currently, I am an Assistant Manager at Reliance Jio Platforms Limited, where I lead UX design initiatives to enhance customer satisfaction through data-driven design solutions. I collaborate closely with cross-functional teams to translate business goals into user-friendly interfaces for millions of users. I thrive on tackling complex design challenges and am driven by the goal of improving digital interactions that empower users.

## WORK EXPERIENCE
